

SANDWICH CAGE INSTRUCTION MANUAL

Congratulations on your purchase of the Dualit Sandwich Cage which is specifically designed to be used with the Dualit toasters. This easy-to-use convenient sandwich cage is useful in great toasting of grilled cheese, ham and cheese, and other sandwiches that need toasting in preparation.

INSTRUCTIONS

Carefully unpack the scale from the carton and remove all transit packing from around the item.

To use with the Dualit Toaster:

Simply open (unfold) the cage and set it on a table. Place the sandwich that you'd like toasted on one of the unfolded areas of the cage. Now take the other side of the cage and fold it against the sandwich. Take the cage by the handles (the sandwich is in the cage now) and insert the cage into one of the toaster slots. The extra wide 28mm slots easily accommodate a Sandwich Cage and toasts your sandwich to perfection.

For instructions on how to properly operate the toaster itself please see the toaster manual.

CLEANING

Before first use, wash the cage in warm soapy water. Thereafter simply clean it as often as needed. It is dishwasher safe.

GUARANTEE

The Dualit scales are guaranteed for two years from date of purchase.

In the unlikely event of any problems, please return to your Retailer with proof of purchase.
